

Wardrobes

Creating space in your home

Whether you are building or renovating, having enough storage space for all your things will always increase the value of your home. Stegbar wardrobes are purpose designed and tailored to your individual style and storage needs, providing you with the right solution whether they are in your bedroom, laundry, office or family room.

With a wide range of door finishes and styles for the outside of your wardrobe, creating a unique look is easy. And with standard and custom configurations for the inside there will always be a functional storage solution for your home.

While this catalogue will show you some of the beautiful and interesting wardrobe solutions that Stegbar can provide, creating the right design for the right room requires experience and know how. A professionally trained Stegbar consultant will discuss your individual requirements with you and design a solution to meet your individual specification.

Creative planning for beautiful wardrobes

To help you create your perfect wardrobe, we'd like to share some useful ideas that should be considered when planning your wardrobes.

Dimensions and location

- Consider the size of the room in which you intend to install the wardrobe.
- The ideal depth of a wardrobe is 650mm to prevent wider clothing from getting caught in the doors.
- Check that hinged wardrobe doors will not open onto hanging light fittings, furniture or doorways.
- Collisions can be avoided by ensuring that the wardrobe doors don't open onto bedroom doorways.
- A wardrobe should be placed clear of windows.
- If you only have one power point in a room, it's best not to cover it with a wardrobe.
- If you have ornate plaster cornices we suggest that the wardrobe stops short of the cornice to avoid interrupting the line and beauty of the plasterwork.
- Uneven floors and walls can be accommodated in most applications.

Door styles

- Sliding door systems are ideal for small rooms. They don't open into the room, so they won't infringe unnecessarily on precious space.
- Hinged door systems are ideal for larger rooms and provide maximum access to your internal wardrobe.

Wardrobe finishes

- To make your room appear larger, choose the right colour exterior. If the room is white or pastel, for instance, a similar shade of wardrobe will blend in unobtrusively.
- To give the illusion of spaciousness, or for a room with a view, consider mirrored doors. These will immediately open up the room and reflect the view so you can enjoy it on the inside and outside as well.
- Storage units built in potentially moist environments, such as bathrooms or laundries, require high moisture resistant board for extended life.

Did you know that Stegbar...

- Is over 50 years old and famous for design innovation and quality.
- Has an excellent reputation in the building industry and is the name most usually specified by architects and builders for Australia's most prestigious homes and apartment buildings.
- Has product display centres all around the country, where you can see all the options and talk to our fully qualified consultants before you buy.
- Has our own highly trained and qualified tradesmen who are specialists in the installation of doors, windows, wardrobes and showerscreens.
- Ensures that all our products meet or exceed Australian Standards.
- Has a tested and certified range of cedar windows and doors suitable for use in bushfire BAL rated areas?

Beautiful on the outside

The doors of your wardrobe are always on display, so we design them with meticulous care and an eye for detail. Stegbar's extensive range of door materials and finishes, in either sliding or hinged styles, provide you the option of coordinating a theme to suit any room in your home.

Be inspired to create doors that are out of the ordinary with finishes like painted glass. Or make a statement with inset panels that give your doors contrast and dimension. With Stegbar creating bold looks is too easy.

On the other hand, you may want a wardrobe that blends in unobtrusively with the room, or that complements a particular style. With routed MDF panels, painted or plain, framed and frameless mirror doors, vinyl covered gyprock or go traditional with the warmth and charm of solid cedar doors. Stegbar has a solution for you.

Wardrobe styles

Sliding doors – framed

- Choice of powder coated or anodised aluminium frames and tracks.
- Door panels in vinyl covered gyprock, plain or painted routed MDF, mirror, timber veneer or painted glass.

Sliding doors – frameless

- Clear anodised aluminium frame.
- Door panels in silver or bronze mirror, or painted glass.

Sliding doors – timber

- Tracks available in a choice of powder coated colours.
- Door panels in plain or painted routed MDF, timber veneer or solid cedar.
- Infill panels in mirror, painted glass and white glass.

Hinged doors

- Door panels in plain or painted routed MDF, timber veneer or solid cedar.

Clever on the inside

Whether you choose a built-in or a walk-in wardrobe, it's the internal systems where Stegbar combines function with style. The internal configuration of your wardrobe can be designed so changes can be easily accommodated as your needs evolve.

Correctly designed hanging areas make a big difference. We'll design your hanging rails around the number of long garments you have so all your clothes will be stored properly, without being creased.

A combination of fixed and adjustable shelves will give you an extremely practical storage combination. Adjustable shelves can be moved up or down to accommodate changes, or removed completely to make room for bulkier items.

We suggest a good design should include drawers and baskets that come in a range of heights and widths for storing smaller items.

Smart accessories

Our wardrobes can incorporate purpose built racks so your shoes are stored neatly. Special compartments can be added to store hats and other personal fashion accessories, and custom made hanging units that will store ties and belts neatly. We can even incorporate a clever slide out television shelf.

It's also worth thinking about how you'd like the inside of your wardrobe finished. A consideration would be to have your wardrobe fully lined with a melamine floor, simply ask your Stegbar consultant for suggestions.

Stegbar hanging rails are oval to prevent sagging and dramatically increases strength.

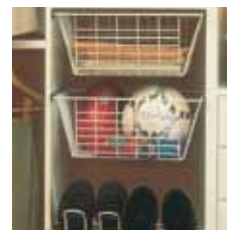

Stegbar drawers incorporate a special roller guide system to provide you years of reliable and smooth operation.

Stegbar rollers are strong and designed to glide smoothly for a lifetime of trouble free operation.

Plastic coated wire baskets are very practical as they let you see what is in the drawer without having to open it.

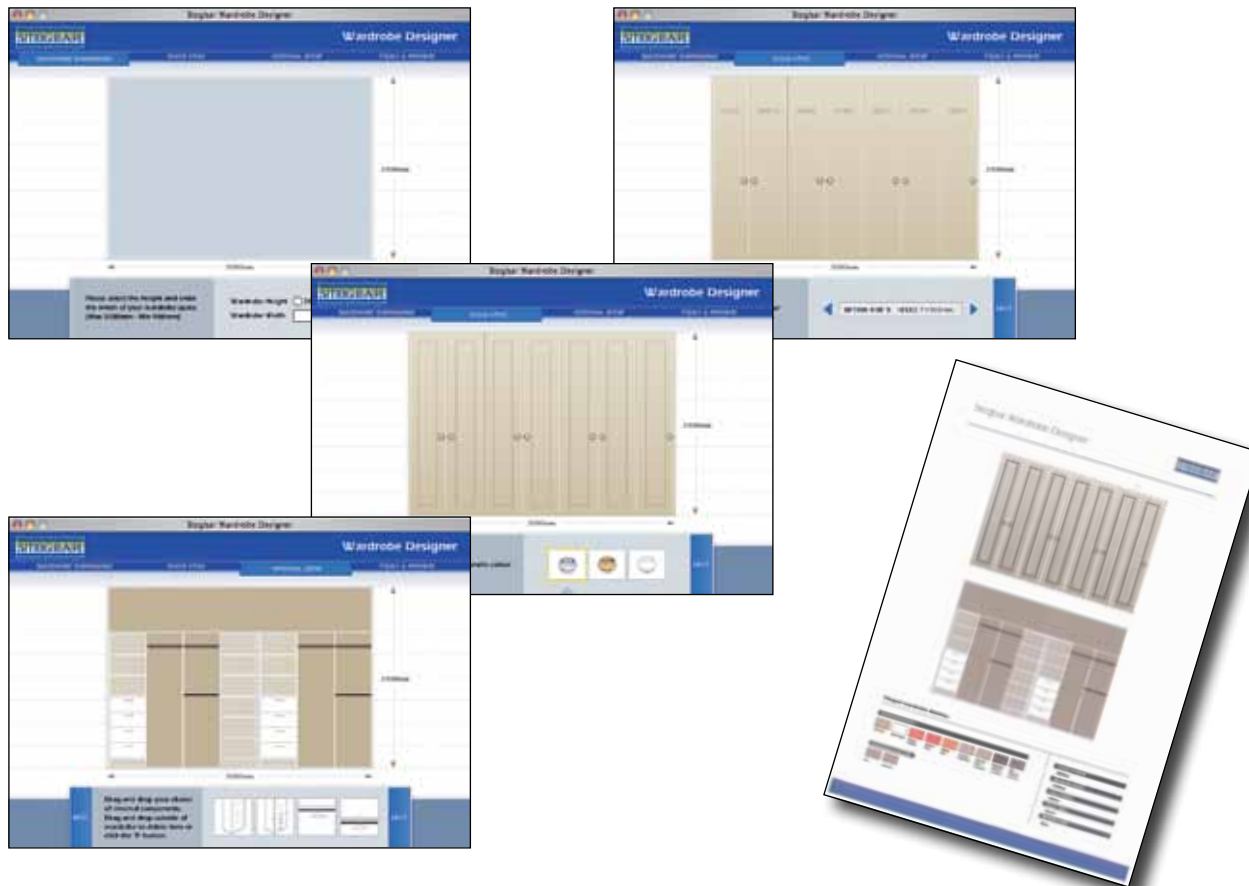

Stegbar wardrobe designer

Whether you are building, renovating, or just trying to find some extra living space, adequate storage facilities will always increase the value of your home.

Using our online Wardrobe Designer, you can create your very own wardrobe solution whether it's for your bedroom, laundry, office or family room.

Timber Windows & Doors

The warmth and charm of cedar is unmatched. The Stegbar range of western red cedar windows and doors is available in standard and custom made sizes.

Mirrors

To complement Stegbar's elegant range of showerscreens, Stegbar offers coordinated mirrors to brighten and enhance your bathroom, or any room in your home.

Aluminium Windows & Doors

Aluminium's combination of strength and lightness makes Stegbar windows and doors neat and unobtrusive. Available in standard and custom made sizes.

Wardrobes

Every wardrobe can be designed and custom made to suit your storage needs and your décor. Available in a range of door styles and finishes.

A.T. 2000 Series™ Windows & Doors

The A.T. 2000 Series windows and doors are a functional combination of rugged powder coated aluminium on the outside, with the warmth and beauty of western red cedar on the inside.

Showerscreens

Stegbar has a showerscreen to suit any bathroom decor, including the safe and functional Softline Series; the truly innovative Grange Series; and the timeless luxury of a Frameless screen.

Timber Entry Doors

A gracious and distinctively designed door creates a lasting impression. Stegbar hand crafted cedar doors are a statement of class and distinction.

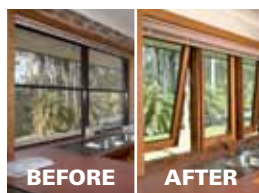

Glass Options

Improve safety and security, reduce noise, control climate, protect furnishings and much more with the right glass.

Coloured Glass Panels

Stegbar coloured glass is a brilliant alternative to tiles in kitchen splashbacks and bathroom walls and are infinitely easier to keep looking like new.

Stegbar Installation Service

Starting with a no fuss consultation, measure and quote, the expert Stegbar Installation Service will help transform your home.
